- UI/UX Design
- Web Development
- Programming Fundamentals

### TECHNICAL SKILLS

Programming Languages:

HTML, CSS, JavaScript, PHP

Database & Tools:

MySQL, Git, GitHub, VS Code, Bootstrap,  
Figma.

### LANGUAGE

- Indonesia (Fluent)
- English (Intermediate)
- Japanese (Intermediate)

### ABOUT ME

I am a second-year Informatics Engineering student at Politeknik Negeri Jember with a strong interest in Data Analytics, Web Development, and UI/UX Design. I enjoy solving problems, analyzing systems, and creating user-friendly digital solutions. Through academic and client-based projects, I have gained experience in frontend and backend web development using modern web technologies.

I am a fast learner, adaptable team player, and highly motivated to improve my technical and analytical skills. I am currently seeking opportunities to gain practical experience and contribute to real-world technology projects.

### EXPERIENCE

#### Company Profile Website for Bioscience Laboratory UPA

2025-2026

- Developed a responsive static website for a bioscience laboratory service profile.
- Contributed to UI/UX design, frontend implementation, and overall website layout development.
- Designed accessible and user-friendly interfaces using HTML, CSS, JavaScript, and Figma.
- Collaborated with team members during design and development processes.

#### Scholarship Information System POLIJE

2026-2029

- Developed a web-based scholarship information system for student affairs services.
- Implemented login and registration features, scholarship filtering, search functionality, and scholarship registration simulation.
- Contributed to both frontend and backend development.
- Designed responsive user interfaces and integrated MySQL database functionality.

### ADDITIONAL INFORMATION

- Interested in Data Analytics and Information Systems
- Familiar with responsive web design principles
- Able to work independently and in team environments
- Passionate about learning new technologies and improving technical skills
